How we can help

01 Worldwide mechanical installations

Assembly and installation of production line equipment — our crews travel wherever the line is being built.

03 Industrial software development

Automation software for industrial use, developed and tested in our own laboratory in Čadca.

05 Production line design

Electrical and mechanical design of various production lines, from concept to documentation.

02 Worldwide electrical installations

Complete electrical installation of production lines on site, carried out and tested by our own team.

04 PLC & robot software commissioning

Bringing lines to life — PLC, drive and robot software commissioned on Siemens, Rockwell, Beckhoff, KUKA, FANUC and more.

06 Remote & on-site service

Service contracts with remote and on-site maintenance keep installed lines running after hand-over.

Visit us

Our office and development laboratory are in Čadca, in the north-west of Slovakia — close to the borders with Czechia and Poland, about 30 km from Žilina.
